PROVISION OF A BACK-UP SERVER FOR THE E-PERMITTING SYSTEM

E-permitting

COMPLETED

Improvement of the electronic system for the issuance of building permits through the provision of a back-up server, which will enhance its stability and availability for over 6,500 users that benefit from it every day. Server and network equipment were procured through the project, as well as necessary licences. The aim of this activity was to contribute to the creation of a more favourable business environment by improving the efficiency and transparency of the e-government and, ultimately, to new investments. At the same time, citizens' trust in institutions, as well as the quality of services that are being offered through the e-government will also be enhanced.

REHABILITATION AND ADAPTATION OF CULTURAL INSTITUTION "REMISIANA"

Local Infrastructure

COMPLETED

The reconstruction, including works on roof, heating, new electric installations and lights, air conditioning and ventilation system of theatre and scenes, as well as the provision of new equipment, will improve conditions for work and organising various cultural activities, while enhancing their quality. The achieved energy efficiency will reduce the cost of heating thus enabling the municipality to invest savings in the expansion of cultural opportunities. Additionally, in line with good governance principles, the Rulebook on the use of cultural facilities in the Cultural Institution "Remisiana" will be developed.
