PROVISION OF A BACK-UP SERVER FOR THE E-PERMITTING SYSTEM

E-permitting

COMPLETED

Improvement of the electronic system for the issuance of building permits through the provision of a back-up server, which will enhance its stability and availability for over 6,500 users that benefit from it every day. Server and network equipment were procured through the project, as well as necessary licences. The aim of this activity was to contribute to the creation of a more favourable business environment by improving the efficiency and transparency of the e-government and, ultimately, to new investments. At the same time, citizens' trust in institutions, as well as the quality of services that are being offered through the e-government will also be enhanced.

COMPLETION OF BOSILEGRAD WATER SUPPLY SYSTEM FROM "RODA" WATER SOURCE

Local Infrastructure

COMPLETED

Finalisation of the construction of the water Supply System "Roda" will enable stable supply of quality drinking water to 4,500 inhabitants of the villages Dobri Dol, Rajčilovci, Radičevci and Mlekominci. Additionally, the losses in the water supply system will be reduced, while through good governance activities the Public Utility Company will establish an efficient system for billing and measurement of water source capacities and distribution.
