**FORMULATION OF DETAILED
REGULATION PLAN FOR
ARCHAEOLOGICAL SITE RUDNA
GLAVA**

DRP

COMPLETED

The Detailed Regulation Plan will determine the land use in the protected area of the archaeological site and define sites which require adequate technical protection. The DRP is a precondition for improving technical infrastructure and working conditions for existing companies, as well as for establishing conditions for attracting investments and developing business in tourism and related sectors. It will also contribute to the preservation and valorisation of this immovable cultural heritage and utilise its touristic potential.

Project value:**13,200 Euros**

Programme funds:

10,560 Euros

Co-funding:

2,640 Euros

**PROVISION OF A BACK-UP SERVER
FOR THE E-PERMITTING SYSTEM**

E-permitting

COMPLETED

Improvement of the electronic system for the issuance of building permits through the provision of a back-up server, which will enhance its stability and availability for over 6,500 users that benefit from it every day. Server and network equipment were procured through the project, as well as necessary licences. The aim of this activity was to contribute to the creation of a more favourable business environment by improving the efficiency and transparency of the e-government and, ultimately, to new investments. At the same time, citizens' trust in institutions, as well as the quality of services that are being offered through the e-government will also be enhanced.
