The art competition in 2019, under the “My European Community” theme, has aimed to encourage high school students to take a better look at their local communities and identify problems which their fellow citizens are facing. This year’s theme prompted high school students to identify the population groups who are in some way neglected or socially excluded in their communities, or need assistance, and then to come up with and creatively present ideas how to support them, and thus enhance their position as equal members of the community.
